ICT use (students) policy

This policy has been created with consideration to our academy ethos: As a Mercy Academy St. Anthony's ethos (the guiding beliefs that characterize a community) is to provide:

- Education which is Christ centred
- Education which is faith enlightened ie. our Roman Catholic faith underpins our work
- Education which shows concern for the poor and the education of women and girls
- Education which build communities
- Education which pursues excellence

To qualify for network, internet and e-mail access, students must read, sign and return an ICT use agreement annually. St. Anthony's Girls' Catholic Academy strongly believes in the educational value of such electronic services and recognises their potential to support the curriculum. Every effort will be made to provide quality experiences for students and teachers using this information service. Inappropriate and/or illegal interaction with any information service is strictly prohibited. If British decency laws are breached or the Computer Misuse Act 1990 is breached then a student is likely to have the matter referred to other authorities including the police. The Computer Misuse Act 1990 identifies three specific offences:

- Unauthorised access to computer material (that is, a program or data).
- Unauthorised access to a computer system with intent to commit or facilitate the commission of a serious crime.
- Unauthorised modification of computer material.

Please read this document carefully, only once it has been signed and returned will access to the computer system be permitted. Listed below are the provisions of this agreement. If any student violates these

provisions, access to the Network, Internet and e-mail will be denied and the student will be subject to disciplinary action.
