

What training have the staff supporting my child had at the School?

The SENDCO attends regular local authority Secondary SENDCO meetings and Bishop Chadwick Catholic Education Trust SENDCO network meetings which provide regular updates regarding current developments in Special Educational Needs and Inclusion.

Staff within the Academy have been trained in the following areas:

- Autism Spectrum Disorder
- Dyslexia
- Speech, language and communication
- Behavioural, emotional and social difficulties
- Administration of medicines
- Epi-Pen administration
- Dealing with grief and loss

Additional SEN/Inclusion training is provided for all staff through staff meetings, inset/CPD days and weekly professional development sessions.

All staff have access to professional development opportunities and are able to apply for SEND/Inclusion training courses on an individual basis.
