Module 1	Module 2	Module 3
Learning Intent for this module:	Learning Intent for this module:	Learning Intent for this module:
Fluency: 'Linking skills and movements together to gain a competitive advantage within a sporting situation.'	Fluency: 'Linking skills and movements together to gain a competitive advantage within a sporting situation.'	Fluency: 'Linking skills and movements together to gain a competitive advantage within a sporting situation.'
Students build on and embed the core skills that they have learned in Y7 and Y8. They develop their techniques to make them more fluent across a range of team invasion games, individual net/wall games and health-related fitness. Students will be physically active for sustained periods of time. They develop knowledge of the different training methods for the components of fitness that can be applied to different team games and the importance of leading healthy, active lives. Students' motivation and opportunities to engage in competitive sports and activities to enable participation in extracurricular or community-based sport continues to be developed.	Students continue to build on and embed the core skills that they have learned in Y7 and Y8 by developing fluency across a broad range of aesthetic activities and team invasion games. Students will be physically active for sustained periods of time. They develop knowledge of how to plan drills and conditioned practices to develop participants' sporting skills. Students' motivation and opportunities to engage in competitive sports and activities to enable participation in extra-curricular or community-based sport continues to be developed to enable students to lead healthy active lives.	Students continue to build on and embed the core skills that they have learned in Y7 and Y8 by developing fluency across team striking and fielding games activities, individual net/wall games and athletic activities. Students will be physically active for sustained periods of time. They develop knowledge of the training methods required for different athletics activities and the importance of leading healthy, active lives. Students' motivation and opportunities to engage in competitive sports and activities to enable participation in extracurricular or community-based sport continues to be developed.
Key Content to be learned:	Key Content to be learned:	Key Content to be learned:
Develop knowledge and fluency in a wide range of team invasion games in isolated practices and competitive situations.	Develop knowledge and fluency in a wide range of techniques in aesthetic activities and team invasion games and be able to lead isolated practices.	Develop knowledge and fluency in a wide range of athletics activities, striking and fielding games and competitive situations.
Develop knowledge and understanding of the role of the official in implementing rules and regulations of different activities and apply them within different contexts.
